

# INSPECTION MIRROR

» *Check under the vehicle and  
check hard-to-reach corners*

## About

This inspection mirror is ideal for searching under cars, trucks and heavy equipment. Equipped with galvanized steel handles, acrylic convex mirrors, wheels, plastic handrails and LED lights.

Heavy-duty rotary wheel carts and adjustable handles allow security personnel to easily inspect anywhere under the vehicle without having to bend over or lose focus on their inspection duties.

It can also be used to check under your bed, garage shelves and hard-to-reach corners.

## Uses

- Entry Security
- Parking Lot Security
- Traffic Stops
- Military Checkpoints
- Auto Maintenance

It can also be used to check under your bed, garage shelves and hard-to-reach corners.
